LEAD AGENCY (if different from above):

SUBJECT: Filing of Notice of Determination pursuant to § 21108 of the Public Resources Code

State Clearinghouse Number (if submitted to State Clearinghouse): 2005092070

Project Title: Amendment To Streamflow Agreement For Lake Davis Pike Eradication Project

Project Location: Plumas County, County Road 126 (Lake Davis Road), County Road 112 (Grizzly Road)

Project Description: On January 23, 2007, the Department of Fish and Game (DFG) approved a project to eradicate pike in Lake Davis and its tributaries. In implementing the project, DFG has amended a streamflow agreement between DFG and the Department of Water Resources to provide for continued cessation of streamflows from Lake Davis through Grizzly Valley Dam beyond the previously-approved 45-day period. This minor modification to the previously-approved project allows completion of treatment chemical neutralization through natural degradation in the reservoir.

This is to advise that DFG, acting as ☒ **the lead agency** / ☐ **a responsible agency** approved the above-described amendment on 11/8/07 and has made the following determinations regarding the above-described project modification:

1. The project modification ☐ **will** / ☒ **will not** have any new significant effect on the environment not previously disclosed in the Final EIR for the previously-approved project or any substantial increase in the severity of a previously-identified potentially significant impact.
2. **An Addendum to the previously certified Final EIR was prepared for this project modification.**
3. No new/additional mitigation measures ☒ **were** / ☐ **were not** made a condition of DFG's approval of the project modification.
4. No new/additional mitigation reporting or monitoring plan ☒ **was** / ☐ **was not** adopted by DFG for the project modification.
5. No Statement of Overriding Considerations ☒ **was** / ☐ **was not** adopted by DFG for the project modification.
6. No new/additional findings ☒ **were** / ☐ **were not** made by DFG pursuant to Public Resources Code § 21081(a) for the project modification. The Department did, however, prepare an addendum to document its compliance with CEQA.
7. Compliance with the environmental filing fee requirement at Fish and Game Code § 711.4 (check one):
 - ☐ Payment is submitted with this notice.
 - ☐ A copy of a receipt showing prior payment is attached to this notice.
 - ☒ Pursuant to Fish and Game Code section 711.4, subdivision (c)(2)(B), no filing fee shall be paid because the project modification is being undertaken by DFG.
- ☒ Lead Agency certification: DFG, as Lead Agency, has made the addendum to the Final EIR available to the General Public at the DFG office identified above.
- ☐ Responsible Agency statement: The final EIR or Negative Declaration that was prepared by the Lead Agency for this project is available to the General Public at the office location listed above for the Lead Agency. DFG's record of decision is available at the DFG office identified above.
